

an appropriated medicinal Fluid; which was, without any Difficulty, retain'd within the Cavity near two Hours, and, at the Close of the Operation, drawn all off at once, without the least Symptom of a *Syncope* from Inanition; of which I shall beg Leave to acquaint you further, when I see how she holds it, as well as of what else remarkable may occur in the Course of my Practice. I am, with the greatest Regard to the Learned, Worthy Gentlemen of the *Royal Society*,

S I R,

*Your most obliged,*

Truro, May 12.

1744.

*and obedient humble Servant,*

Chr. Warwick.

V. *A Letter from John Bevis, M. D. to John Machin, Esq; Secret. R. S. &c. containing some Observations concerning Mercury.*

S I R,

*Presented May 4.*  
1744.

THE Observations to which the inclosed Computations are made by Mr. *Morris* from somewhat more correct Elements than those in Dr. *Halley's* Tables, were carefully taken by myself, with an excellent astronomical Sector of five Feet *Radius*. You will perceive how far I am limited, by my Friend's Request; so must intreat you, if you think it worth while, to inform the

the *Royal Society*, that *Mercury's* Motion has not been at all disturb'd, [by the late *Comet*] to do it in what manner you shall think best. I am,

S I R,

*Your obedient,*

Wednesday, May 23.

1744.

*humble Servant,*

J. Bevis.
